My practice is based in Core Energetics therapy and transpersonal psychology, but uses numerous other methods for energetic bodywork and healing. In addition, I have significant experience in hospice work, death, dying and bereavement. I help people transform issues such as depression, anxiety, crises, illness, trauma, bereavement or birth, while crafting a greater connection to body, health and personal meaning. This is accomplished first through talking. It usually also includes breath work, movement, touch and voice. The course of work supports physical and emotional release and renewal, and increases awareness and empowerment. Finding an understanding of these changes in the context of spirituality is supported and encouraged to the extent that clients find this useful. Attending to our emotional health is vital for our overall well being. Good mental health strengthens and supports our ability to create effective relationships, make good decisions, handle the ups and downs of life, and reach our full potential. Many research studies have shown that when people receive appropriate mental health care, their use of medical services declines and they feel better. Using an integrated approach I compassionately help people to gain insight, make better choices, and overcome obstacles. I have over twenty years of experience in the mental health field, working exclusively with adults. Some of my clinical experience includes eight years at New York Hospital-Cornell (inpatient treatment of personality and mood disorders), individual and family therapy at outpatient treatment centers in Manhattan and the Bronx, group facilitation at Bedford Prison, and home support services for the elderly through JCC Westchester. I have also studied many aspects of holistic health, alternative medicine, and the wisdom of the mystics; always aspiring to be a more well-rounded person and a better healer. ### ELLEN GOLDBERG, MA

**Master Palmist, Tarot Reader, Astrologer**

[SchoolOfOracles.com](http://SchoolOfOracles.com) | [WiseWomanTherapist.com](http://WiseWomanTherapist.com)

**Palmistry, Astrology and Tarot** are some of the best tools for guidance that life has given to us. A reading can quickly offer you a deeper understanding of yourself and your life. It opens up the places where you have been stuck, confused or troubled. Mystics call the palm "God's Road Map", but we could also say that the hand was a Map of the Brain. The lines and shapes in the palm are formed by the subconscious mind, and change as you change. The Tarot is a living Oracle; it enables us to communicate with levels of consciousness not normally available to the conscious mind. Many say that it is the Higher Self speaking through the cards. Astrology shows the blueprint the soul came in with. I mix and match these arts to create a reading that will increase clarity and help you find fulfillment. I am a psychotherapist and mystic with keen intuition and an excellent ability to synthesize information. I have been working with eastern and western mystic arts for

over 40 years. It is my joy to read for people. I have been on the faculty of the New York Open Center since 1986 teaching Tarot and the Hermetic Tradition. I am also the founder and director of The School of Oracles which offers in-depth professional trainings in Tarot and Palmistry. Please feel free to visit my School of Oracles website where I have posted **over 100 free videos – mini lessons in Tarot and Palmistry**. I am available for readings at my home in Manhattan's West Village, or via Skype or phone. I will gladly record your reading for future listening. You are welcome to phone or email me with any questions about my work. I am also available to read at special occasions, and parties. Individual readings cost \$175 per hour, \$260 for one and a half hours.
